# FREE 26' PRESIDENT

*Elegant, Superbly Designed and Crafted*

The aerodynamically molded, fiberglass body, an industry exclusive, gives the Born Free Motorcoach a stylish, sleek appearance. It also reduces drag for increased gas mileage. Dual rear wheels on the Ford chassis, with independent front suspension and a 460 Fuel Injected V-8 or optional 7.3 Liter Diesel Engine, provides responsive performance and a smooth, comfortable ride.

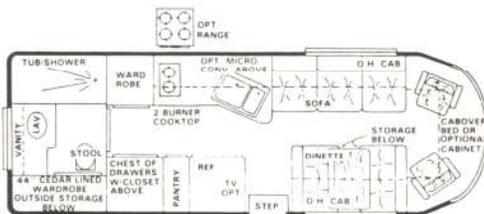

The Born Free is constructed of the three best building materials: **steel, wood, and fiberglass.** Strategically incorporated into the frame and body are 4 steel roll bars, a one-piece fiberglass laminated floor, a steel reinforced (one piece) roof, and the molded fiberglass body. All these add up to give Born Free the **best** construction and safety record in the RV Industry. (No fatalities or serious injuries in over 20 years of production.) For years of trouble-free traveling, discover the difference of Born Free for yourself!

*Experience the Adventure of Travel in a Born Free*

Beauty, drivability, comfort, and performance puts the Born Free Motorcoach miles ahead of RVs of comparable size and class, in customer satisfaction and resale value. And, since you buy your Born Free factory direct, you can rest assured – your's will be given our most careful and professional attention.

*Award-winning Design, Performance and Quality – the Born Free Tradition*

Our commitment to superior craftsmanship and the finest quality has gained Born Free industry recognition for its engineering, construction, road handling, fuel economy, and interior design. In the RV Industry, only 3 National Product Trophies have been awarded – one for best design and two separate awards for fuel economy. Born Free won all three.

Using a "team production" concept from start to finish, each motorcoach is individually built by a team that is totally responsible for its high quality and craftsmanship.
