The road we've traveled...

Dodgen Industries ~ Born Free RV

Founded in 1947 by John, Joe and Jack Dodgen, Dodgen Industries, Inc. became known for manufacturing feed and grain handling equipment; featuring bulk feed trucks, self-unloading systems, hydraulic loaders and mobile palletizers.

Dodgen Industries, Inc. diversified in 1969 and designed a slide-in camper with a tag-axle which allowed standard pickup trucks to carry larger and heavier campers.

During the early 1970's, the company expanded its position in the recreational vehicle industry with the introduction of its first "Born Free Motorcoach" class C motor home. Ford Motor Company's cutaway chassis became available in 1975 allowing more room in the cab and Dodgen Industries, Inc. developed a molded fiberglass body to fit. Born Free Motorcoach received immediate recognition, winning awards for aerodynamic styling and fuel economy. Born Free Motorcoaches are now offered in a variety of floor plans ranging from 21' to 33' in length, and are available on Ford or GM Chassis. Born Free caters to a niche market of RV enthusiasts who are highly discriminating and insist on a high quality, reliable and durable RV. The typical Born Free customer is 55+ years of age, has owned six RV's and have been active in the RV lifestyle for two decades.

In 2008 new molds were completed making the fiberglass bodies even more aerodynamic, with improved form, fit and function as well as added storage. All vehicles manufactured are constructed with at least three 2" tubular steel roll bars, and wood frame walls. The durable construction and superior drivability of vehicles manufactured by Dodgen Industries, Inc. has contributed to the unique claim of not a single fatality or serious injury in over 40 years.

Dodgen Industries, Inc. is still a privately held corporation based in Humboldt, Iowa. It's Recreational and Commercial Vehicles are sold factory-direct from factory owned sales lots in Humboldt, Iowa. John N. Dodgen owns 100% of the company's voting stock. John C.T. Dodgen is CEO/President and Dennis Day is Vice President.

Potential customers are encouraged to visit the company for a plant tour to see first hand the quality in construction and components which are used in each Dodgen/Born Free vehicle. The dedication to continuous improvement of its products and services is evident in the quality of its coaches and the loyalty of its customers. "The advantage of a small business is flexibility," Dodgen says, "if times change, you can change with them."

This 1974 tag-axle slide-in camper is available for viewing in our factory showroom.

Born Free Freedom

Freedom
23' 9"
(E-Series Chassis)

Royal Freedom
26' 11"
(F-Series Chassis)

The Born Free Freedom gives you the best of both worlds in any of the 23' floor plan designs. The shorter, compact size allows you to go wherever your imagination would like to take you. The Freedom provides a roomy, spacious interior design that feels like a larger motor home. The biggest surprise in a coach of this size is the separate shower that you typically would only find in a larger coach. The living room has the diversity to allow you to design any furniture option and combination we offer to meet your family's needs. Our queen size cab-over bed option now gives you a very comfortable memory foam mattress. Coupled with Flexsteel chairs and Villa sofa beds, you will have the finest furniture choices in the industry. New amenities such as all LED lighting both inside & out, power day/night shades, laid tile floor and glass tile back splash are just a few of the features found in the Freedom giving you the feel of a larger luxury motor home, in a much smaller size!
